

PROFESSIONAL SUMMARY

A detail-oriented and results-driven software engineer with previous experience in social work seeking a frontend-focused software development role. Skilled in working across the full development lifecycle, from requirements gathering to deployment. Adept at collaborating with cross-functional teams to deliver high-quality solutions. Always eager to expand knowledge and leverage new technologies to solve complex problems.

TECHNICAL SKILLS

HTML5, CSS3, Bootstrap, JavaScript/Typescript, React, Ruby, Ruby on Rails, Flutter/Dart, Capybara, SQL, Redis, Supabase, Vercel, ActiveRecord, Tailwind, Figma, Jira, GitHub/GitLab, Infra, Flipper, Next.js.

EXPERIENCE

JourneyHealth

Contractor | Software Engineer

9/2025 – present

- Finalized the cross-platform MVP of a core mobile application, translating high-fidelity Figma design tokens into modular, performant Flutter components for iOS and Android.
- Refactored inherited code to resolve layout constraints and cross-device rendering bugs, establishing visual consistency with the production design system.
- Maintained a rapid deployment cadence alongside the Lead Engineer and CEO, integrating stakeholder feedback into weekly iterative builds.

Slope Clinical

Richmond, VA (Remote)

Developer 2

11/2023 - 7/2025

- Architected conditional rendering logic using Flipper feature flags to support a zero-downtime, staggered rollout of the overhauled site navigation.
- Triageed and diagnosed front-end defects and regression issues within a monolithic environment, collaborating with cross-functional teams to patch critical customer support escalations.
- Developed bulk action functionality, allowing users to efficiently manage large volumes of inventory alerts at once, improving operational efficiency.
- Assisted in the creation of an interactive workflow for recording sample collection data, enhancing data accuracy and usability for clinical trial teams.
- Contributed to the UI design for a prototype of the mobile version of the core software, expanding the product's accessibility across platforms.
- Advocated for and helped create a plan for updates to the front-end architecture, ensuring scalability and improved maintainability of the codebase.

Developer 1

3/2022 - 10/2023

- Played a key role in revamping the inventory creation workflow and developing a more efficient and reliable alerts system for inventory management.
- Helped to build a significant sample management workflow project, streamlining processes for clinical trial sites that use the software independently, allowing those sites to track sample data from inventory, through sample collection and registration, all the way to the lab.
- Acted as the development lead for the overhaul of the site's navigation and the creation of a new user interface layout, improving the user experience by reducing navigational clicks and enhancing site functionality.
- Led cross-functional collaboration to ensure project alignment and timely delivery, utilizing strong communication skills to facilitate successful outcomes.

Software Development Contractor

2/2022 - 3/2022

- Contributed to the development of software used to manage clinical trials, focusing on building controllers, models, and critical path tests for the existing system.
- Independently managed development tasks, demonstrating growth and confidence in delivering high-quality software solutions.

PREVIOUS EXPERIENCE

John Carl Auction Company | Photographer | 9/2018 - 8/2020
The Athletic Club of Hershey | Childcare Provider/Email Marketing Assistant | 9/2016 - 10/2018
AWE, Inc. | Quality Assurance Contractor | 2/2014 - 5/2014
Delaware County Office of Early Intervention | Service Coordinator Supervisor | 11/2010 - 9/2011
Delaware County Office of Early Intervention | Service Coordinator | 10/2008 - 11/2010
Adams County Children & Youth Services | Case Manager | 10/2007 - 9/2008

VOLUNTEERING

MOMS Club of Elizabethtown	Elizabethtown, PA
Treasurer	7/2016 - 6/2017
Vice President of Membership	7/2017 - 6/2019

TECHNICAL PROJECTS

ArrowStorm- arrowstormarchery.com

A Next.js PWA for scoring archery rounds.

Stack: Next.js, Supabase, Serwist, Clerk, Google OAuth, Tailwind, and shadcn component library

Yarn Stasher - [Github](#) | [Demo](#)

A Rails web app for fiber artists to track their yarn supply, create and share projects, and comment on others' projects.

Stack: Ruby on Rails, ActiveRecord, SQLite, Google OAuth, and CSS

BookCritiq - [Github](#) | [Demo](#)

A React/Redux web app which allows users to review their favorite books.

Stack: Rails as an API, ActiveRecord, SQLite, React, Redux, and Bootstrap

EDUCATION

Flatiron School	New York, NY
Full Stack Web Development, Ruby on Rails and JavaScript program	
Shippensburg University	Shippensburg, PA
Bachelor of Arts, Psychology
